

WELCOME TO OUR CITY AND REGION

Opole is situated on both banks of the Odra river, round the Pasięka island the cradle of the regional settlement. As a part of north-west outer edge of Silesian Lowlands, it is located between three geographic regions: Silesia's Highlands, Silesia's Lowlands and Sudety Hills. The population of Opole is about 130 thousands people and it occupies the area of 96 km, the length of the Odra river within the city borders is 20 km.

Opole is the city of 666 streets. The total length of the roads which are lit by almost 7000 lamps equals to about 300 km. In Opole there are marked ecological-educational and bicycle paths.

For those, who prefer walking we recommend beautiful paths with breath-taking view in the most picturesque corners of places of historical interest and charming streets.

In our region there are 20 thousand monuments of architecture, almost 9 thousand moving monuments, about 160 castles, palaces and manor houses, medieval polychromies and unique wooden, sacred architecture. Opole region is also famous for its beautiful and pure nature: 3 landscape parks (St. Anna's Mountain, Opawskie Mountains and Stobrawskie Forests), 34 reserves and 6 areas of protected landscape.

For all archeology-lovers we recommend DINOPARK in Krasiejów, place where paleontologist discovered a skeleton of the oldest dinosaurs in the world. We also invite you to a beautiful zoological garden located on Bolko island, where there are about 1000 animals representing over 130 species, including gorillas, which are unique in Poland.
